

This license is made public in the interest of transparency and public-interest governance.

# SolarSystemRegistry.org

## Public License (SSR-GPL)

Version 2.0

### 1. Purpose

SolarSystemRegistry.org (the “System”) is a public-interest visualization and synthesis tool.

It integrates:

- Author-developed components, including an Integrated structured database framework, accessible via an API.
- Contributions developed within the Cosmic Footprint Society (CFS);
- External datasets and research sources.

This license governs use of the System as made publicly available.

Ownership of the core System and associated intellectual property remains with Adrien Normier.

This license does not transfer intellectual property rights.

---

### Tier 1 — Public-Interest Use (Automatic)

You may use the System freely, without prior request, for:

- Education;
- Academic research;
- Non-profit activities;
- Non-commercial outreach;
- Non-commercial artistic or cultural projects;
- Citation and reference.

### Conditions

You must:

- Provide clear attribution;
- Not imply endorsement by the author or CFS;
- Not distort or misrepresent the content;
- Not extract or replicate underlying databases.

Tier 1 applies only to use of the System as publicly presented.

---

## **Tier 2 — All Other Uses (Written Authorization Required)**

Any use outside Tier 1 requires prior written authorization.

This includes, for example:

- Commercial or monetized use;
- Corporate or institutional integration;
- Paid exhibitions;
- Structural database extraction;
- API integration beyond public access;
- Modification or rebranding of the System.

Authorization is valid only if granted in writing. Silence does not constitute approval.

---

## **2. Intellectual Property Layers**

The System may include components owned by:

- The author;
- CFS;
- Third-party data providers.

Tier 2 use may require separate clearance of these layers.

No rights over third-party data are granted unless explicitly stated.

Users are responsible for ensuring compliance with applicable intellectual property rights.

---

### 3. Public-Interest Continuity

No authorization may restrict:

- Public-interest use under Tier 1;
  - The continued availability of the System for public-interest purposes;
  - The perpetual rights granted to CFS under separate agreement.
- 

### 4. Attribution

Required form: “SolarSystemRegistry.org — Adrien Normier”

Where applicable: “In collaboration with the Cosmic Footprint Society”

---

### 5. Safeguard and Right of Refusal

Adrien Normier may refuse, limit, suspend, or terminate authorization where the intended or actual use:

- misrepresents or distorts the System;
- undermines scientific or analytical integrity;
- associates the System with advocacy, promotion, or normative campaigning;
- contributes to misinformation or disinformation;
- causes serious reputational or institutional harm;
- creates a material conflict of interest or risk of institutional capture.

Decisions shall be based exclusively on the projected or actual use and not on the identity, affiliation, status, or viewpoint of the requesting party.

This safeguard applies independently of Tier classification.

---

### 6. No warranty and limitation of liability

The system is provided “as is” and “as available”, without any express or implied warranty, including but not limited to warranties of accuracy, completeness, reliability, fitness for a particular purpose, or non-infringement.

The author makes no representation that the materials are error-free, complete, or suitable for any specific use.

Users remain solely responsible for any interpretation, decision, action, or reliance based on the materials.

To the maximum extent permitted by applicable law, the author shall **not be liable** for any direct, indirect, incidental, consequential, reputational, economic, or other damages arising from:

- Use of the materials;
- Reliance on the materials;
- Inability to use the materials;
- Errors, omissions, or inaccuracies.

Nothing in this section excludes liability where exclusion is prohibited under applicable law.

---

## 7. Governing Law

This license is governed by French law.

The rights granted to the Cosmic Footprint Society under the SSR→CFS License Grant take precedence over any restrictions arising from this license.
