Note: This document is made public in the interest of transparency and governance clarity.

SolarSystemRegistry.org — License Grant to the Cosmic Footprint Society

System: SolarSystemRegistry.org (independent project authored by Adrien Normier)

Adrien Normier grants the following license to the Cosmic Footprint Society (CFS)

1. Scope

This license governs the use of the visualization system SolarSystemRegistry.org by Cosmic Footprint Society (CFS)

2. Ownership

The intellectual property rights to the SolarSystemRegistry.org visualization system are retained by **Adrien Normier**, as the original author.

This license does not transfer ownership of intellectual property rights.

3. License granted to the Cosmic Footprint Society (CFS)

Adrien Normier grants the **Cosmic Footprint Society (CFS)** a worldwide, perpetual, irrevocable, and royalty-free license to:

- use, operate, and display the system;
- distribute it freely for public-interest and non-commercial purposes;
- authorize third parties to use the system for activities consistent with the public-interest mission of CFS;
- develop, adapt, or extend the system for its own activities.

This license does not grant CFS any ownership or co-ownership of the intellectual property.

The license granted to CFS under this Section is independent from any commercial or negotiated licenses granted by the author and shall not be restricted, revoked, or conditioned by them.

4. Public-interest use

Use of the SolarSystemRegistry.org visualization system is free for activities falling under the General Public-Interest Regime as defined in the CFS Generic Public-Interest License, including:

- education and teaching conducted on a non-commercial basis;
 - independent research;
 - non-governmental and non-profit activities;
 - non-commercial mediation and outreach;
 - non-commercial artistic projects.
-

5. Other uses

Any use falling outside the General Public-Interest Regime requires a separate authorization and license from the author.

Where such use involves the name, endorsement, institutional participation, or formal representation of the Cosmic Footprint Society (CFS), prior notification to the Board of Directors is required.

In such cases, where the author holds a governance position within CFS, they shall recuse themselves from any internal deliberation relating to CFS's involvement.

Nothing in this Section restricts the author's freedom to license or commercialize the system independently, provided that such licensing does not limit or impair the perpetual public-interest license granted to CFS under Section 3.

No authorization shall grant exclusivity that would prevent CFS from continuing to use and distribute the system for public-interest purposes under Section 4.

6. Further development

Development or improvement of the system by or for CFS is permitted. Such development does not transfer or modify intellectual property rights unless explicitly agreed in writing.

LIC_2026-02-05_SSR-CFS_LicenseGrant.pdf

Where commercialization involves components, database structures, ontologies, models, or collective developments owned or co-owned by CFS, such commercialization shall be subject to a separate license agreement with CFS.

7. Data and sources

The system is a visualization tool and is not an authoritative or archival registry. No intellectual property rights are claimed over external data sources used or referenced.

8. Limitation of liability

The system is provided “**as is**”, without warranty of any kind.

Neither the author nor CFS shall be liable for any use or consequence arising from the system.

9. Continuity

The license granted to the Cosmic Footprint Society remains valid regardless of any change in the author’s involvement in, affiliation with, or role within the Cosmic Footprint Society.

(End of license)
